John A. Jeffery Primary Examiner Art Unit: 3742 Continuation of 5. does NOT place the application in condition for allowance because: the examiner maintains that the cited prior art to Honmou and Irie, considered in combination, renders obvious to the skilled artisan the claimed method and apparatus for forming wedge-shaped lenses by polishing, detecting an aspect ratio of the diffraction pattern of light exiting the fiber lens, and fusing in response to this detected aspect ratio.

Continuation of 10. Other: The "X" in Box "2b" was an inadvertent typographical error. As noted on Page 6 of the office action mailed 7/9/03, the action expressly states it is a final rejection.
